AI & Risk

THE PROBLEM

Running a school shouldn't need ten disconnected tools.

Paper registers

Excel sheets

WhatsApp groups

Accounting software

File cabinets

ID-card vendors

The cost of scattered tools

Data lives in silos

The same student is re-entered in five places.

No single view

Nobody can see the whole school at once.

Manual, error-prone

Receipts, ID cards and reports made by hand.

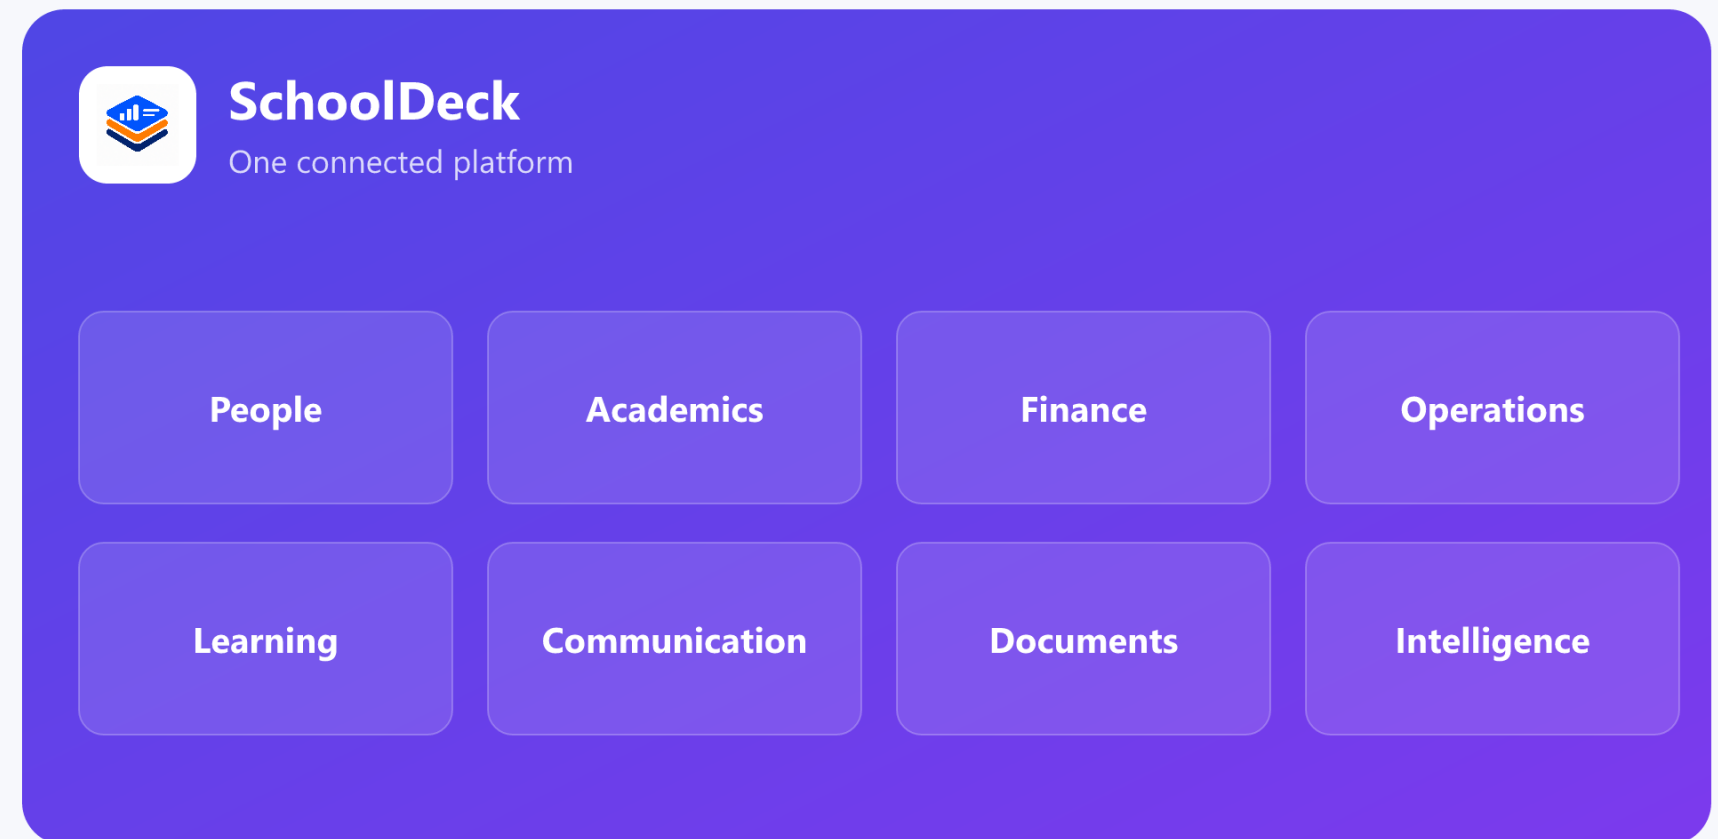

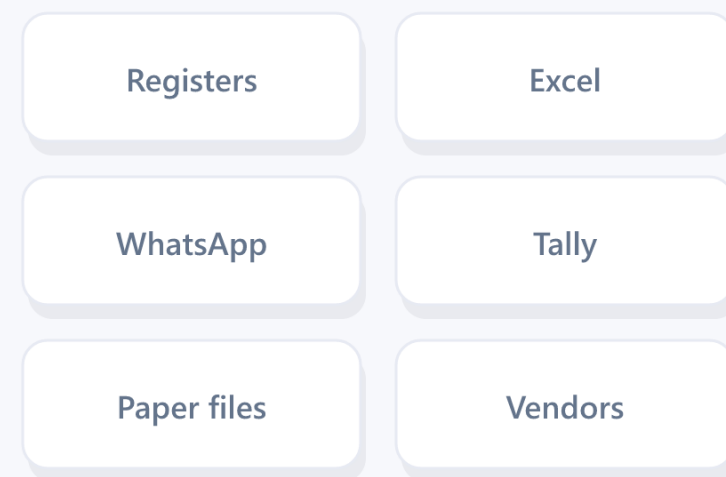

Slow to answer parents

Fees, attendance and marks are hard to pull up.

— THE SHIFT

From scattered tools to one operating system.

BEFORE

One record. Every department connected. One place to run the school.

— WHAT IT IS

A School Operating System — not just another ERP.

Every module shares one source of truth, so information flows across the whole school.

People

Students, teachers, staff and parents — one connected directory with profiles, documents and IDs.

Academics

Classes, subjects, timetable, attendance, exams, assignments, syllabus and digital learning.

Finance

Fees, collection, receipts, dues, scholarships, expenses and payroll in one ledger.

Operations

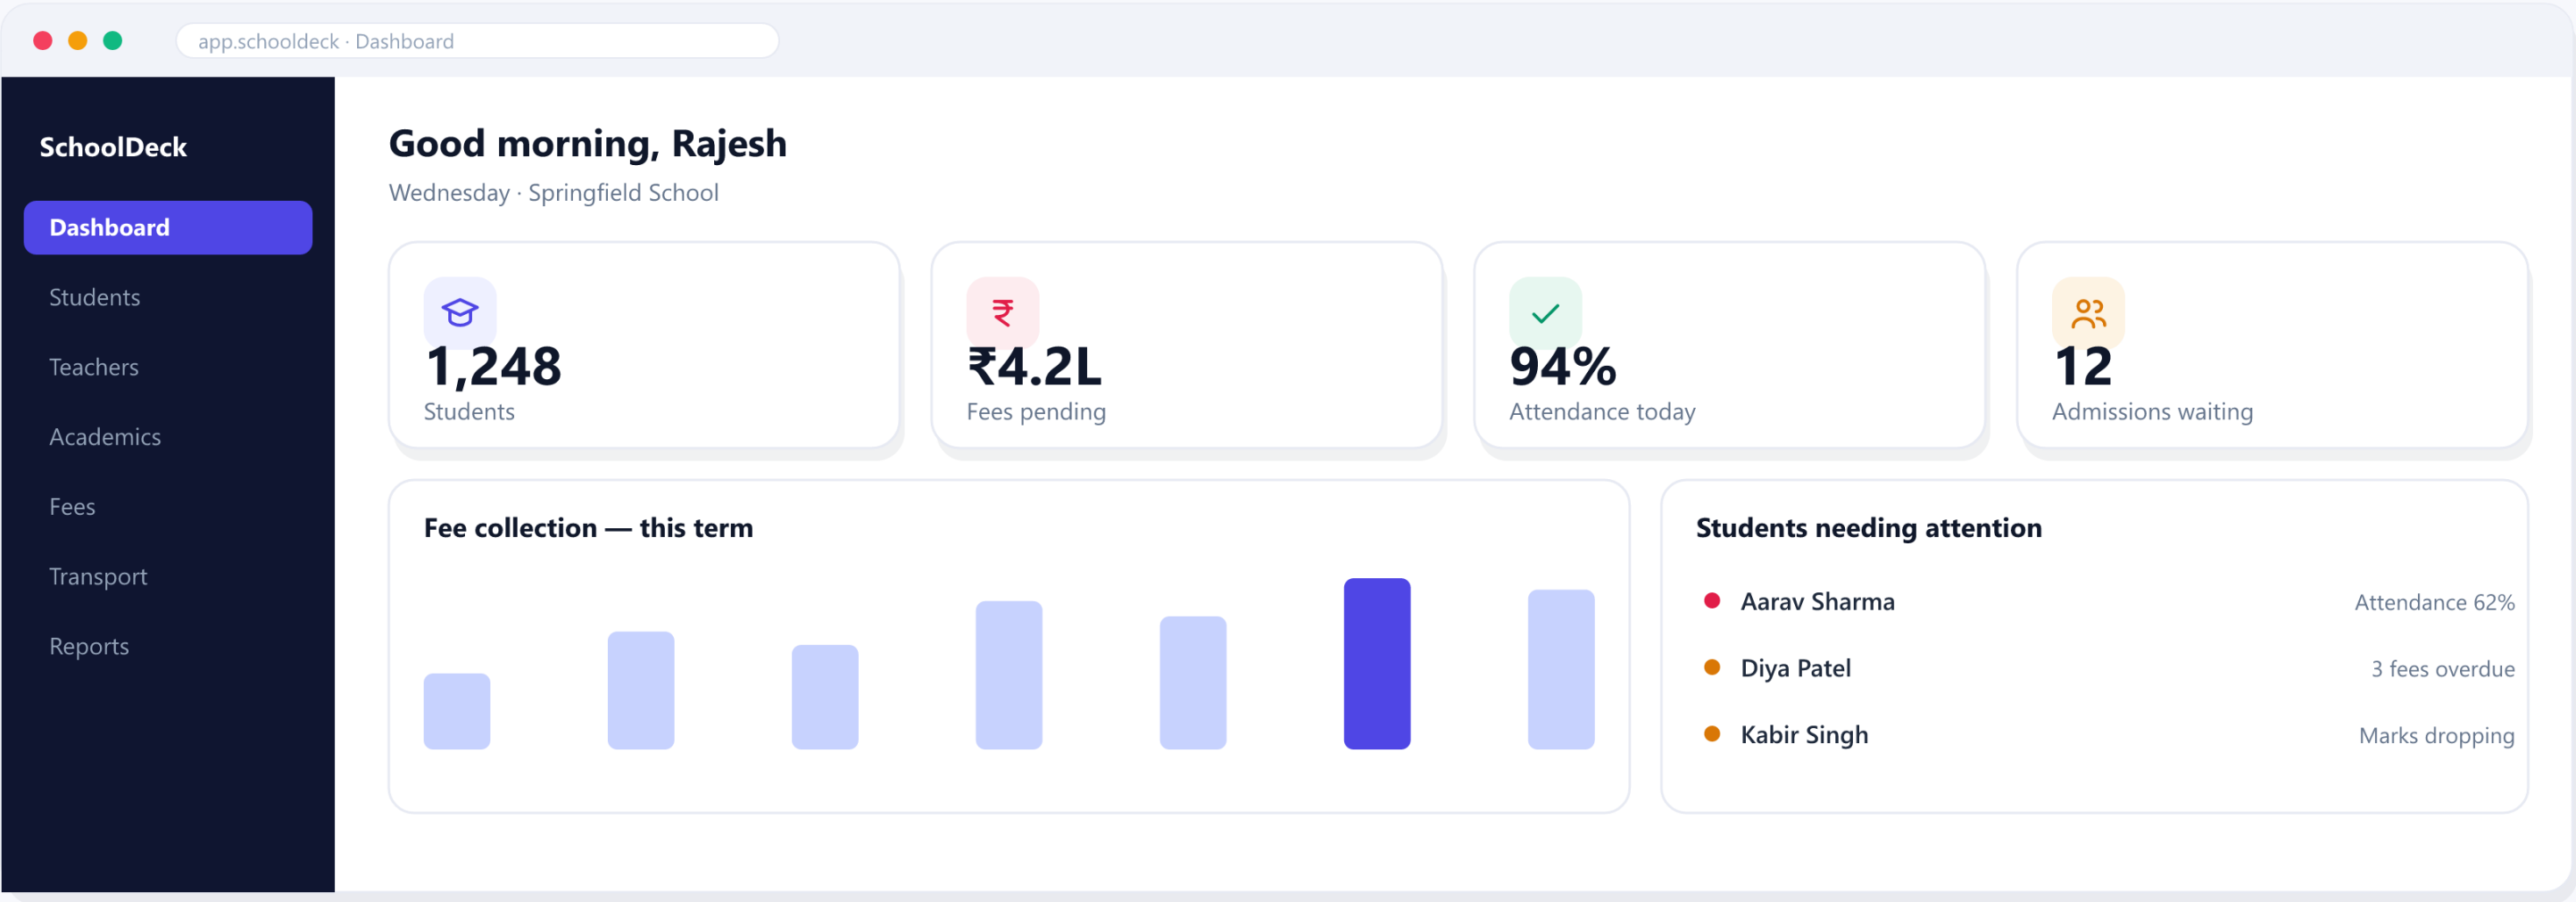

Transport, hostel, library, inventory, canteen, health, labs, events and visitors.

Everything your school runs on — in one map.

Know what's happening across your school — at a glance.

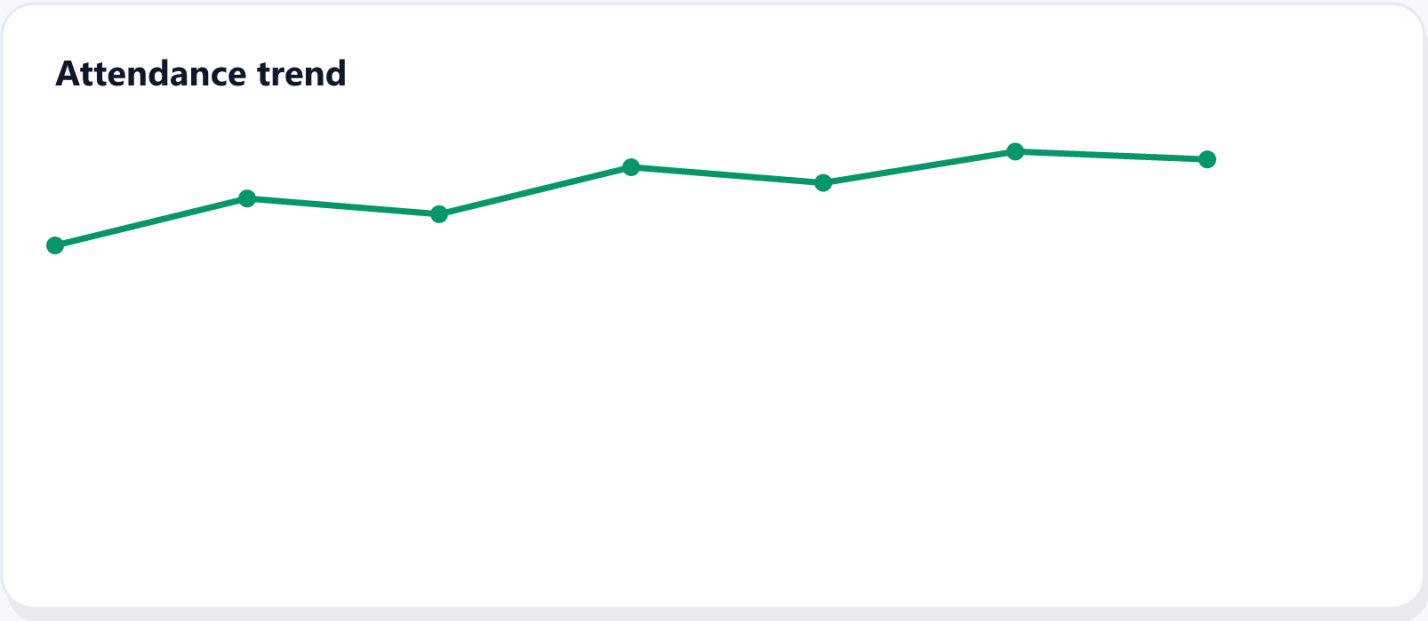

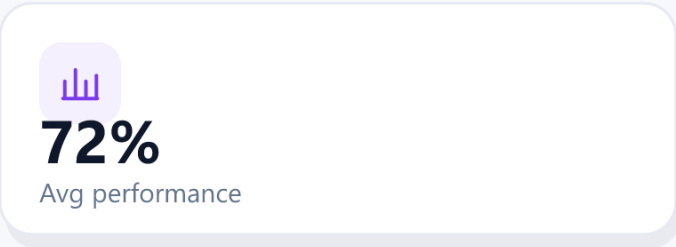

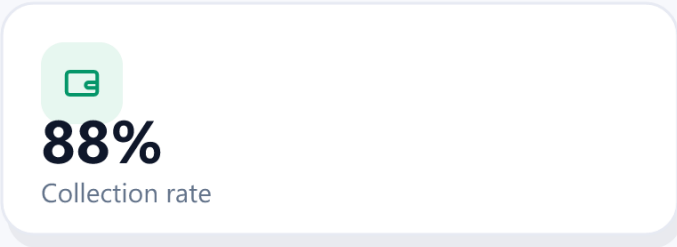

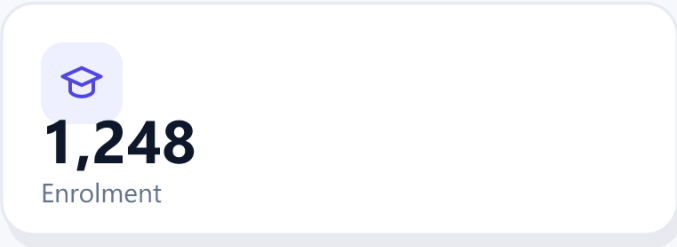

A role-aware home screen: owners and principals see the whole school; teachers and accounts see their world.

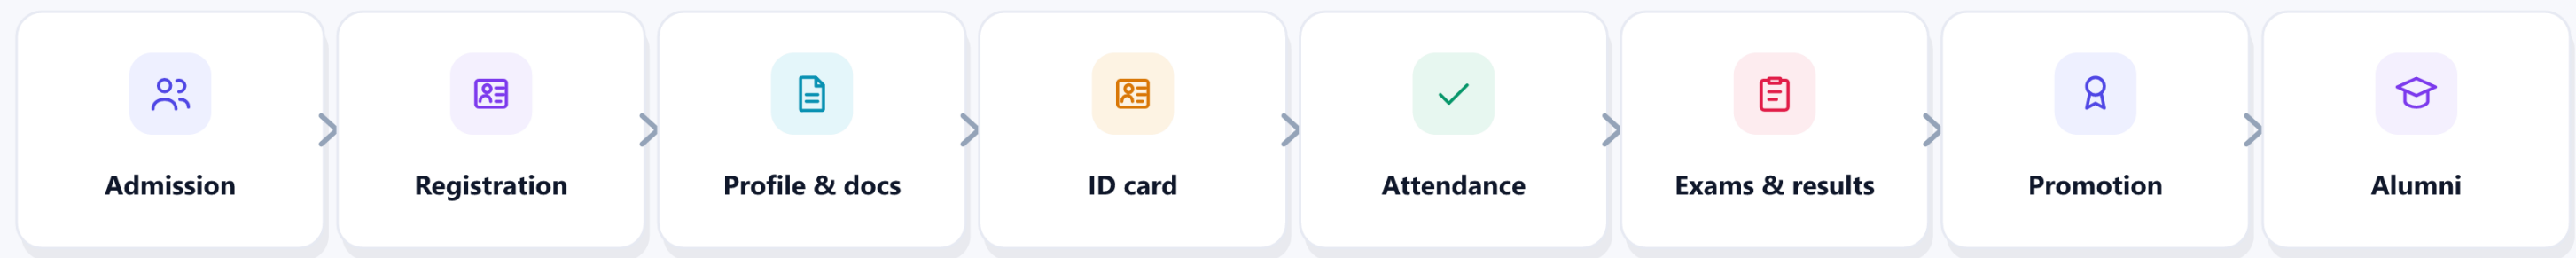

Turn everyday data into decisions.

Filter by week, month or year — every chart is built from your live records.

Week **Month** Year

One connected journey — admission to alumni.

Every stage writes to the same student record — so admission details, documents, fees, attendance and marks are always connected, never re-entered.

One student record. Every interaction connected.

- 

Smart registration
Admission & roll numbers auto-generate, class-wise.
- 

Documents on file
Aadhaar, birth certificate & more — required at intake.
- 

Fees from day one
Set the fee structure right inside registration.
- 

Promotions & transfers
Move a class up, transfer out, or archive as alumni.

All Students

+ New Student

Name	Class	Roll	Fee	Status
A Aarav Sharma	Nursery	01	—	Paid
D Diya Patel	Class 3	14	—	Due ₹3k
K Kabir Singh	Class 5	08	—	Paid
A Anaya Rao	Class 8	22	—	Partial
V Vivaan Mehta	Class 10	05	—	Paid

Daily attendance that manages itself.

 **Mark in seconds**
Class-wise sheets — one tap per student, or All Present.

 **Auto-absent after 11 AM**
Unmarked students are set absent automatically.

 **Holidays & Sundays**
Closed days show as holidays — never counted absent.

 **Attendance analytics**
Track class and student trends over time.

Attendance · Class 5-A

Mark all present

 Not marked by 11:00 AM will be set absent automatically.

Collect fees in one clean flow — with a receipt at the end.

Fee Receipt

#RCPT-2043

Tuition — Class 8	₹ 24,000
Transport	₹ 6,000
Scholarship (10%)	– ₹ 3,000

Amount paid

₹ 27,000

Download / Print

Fee Dues

Every student with a pending balance, class-wise — send reminders fast.

Scholarships

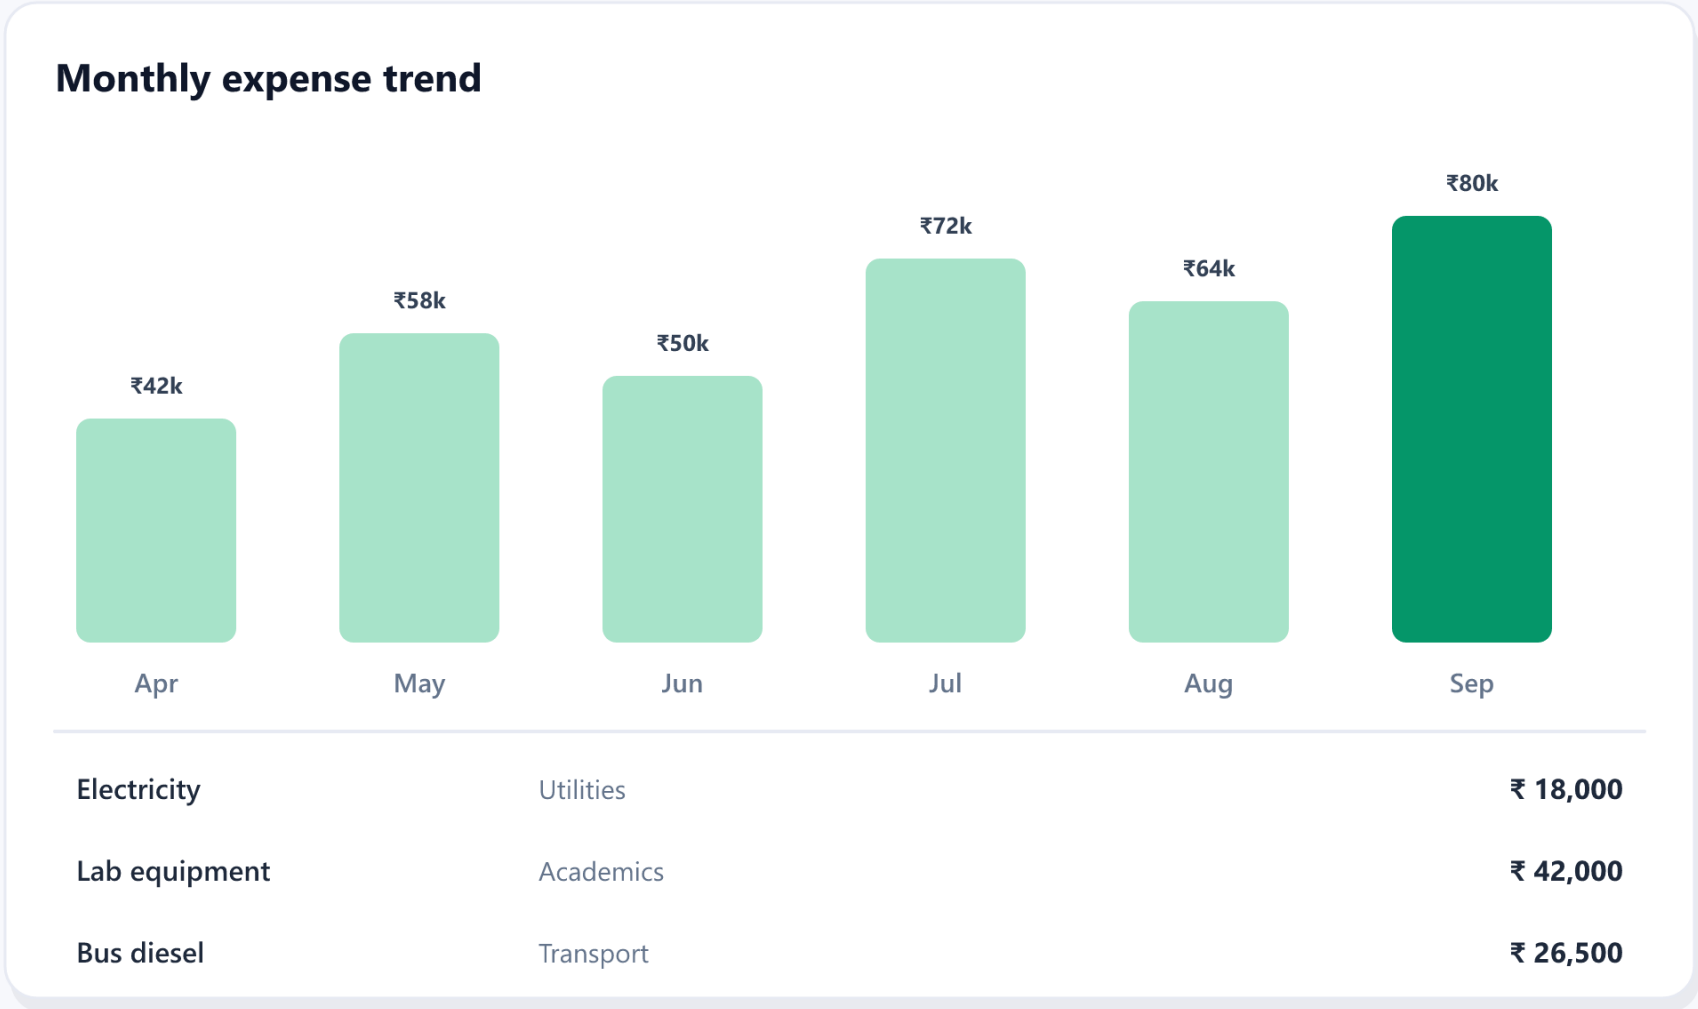

Discounts by amount or percentage — auto-applied to the student's bill.

Expenses & payroll

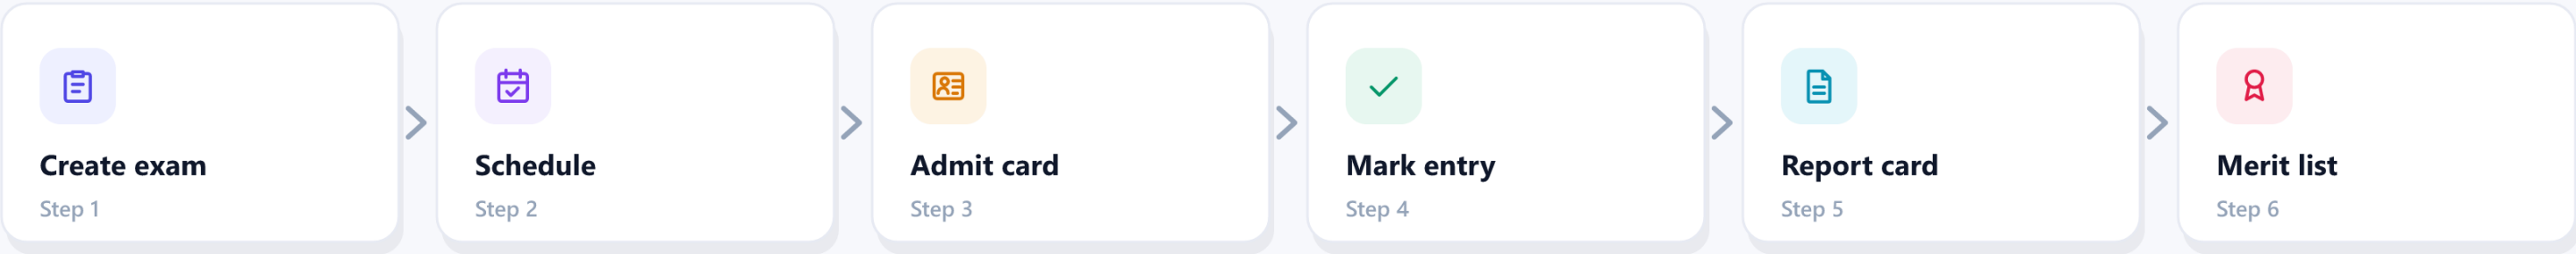

Log school expenses, watch the monthly trend, and run staff payroll — all in the same finance hub.

Watch where the money goes.

-  **Add expense in seconds**
Category, amount, date, method — validated on save.
-  **Monthly expense trend**
A live chart that scales to your real data.
-  **Filter & total**
By category or month — totals always match the records.
-  **Consistent finance view**
Records, totals and the dashboard stay in sync.

The full examination lifecycle — end to end.

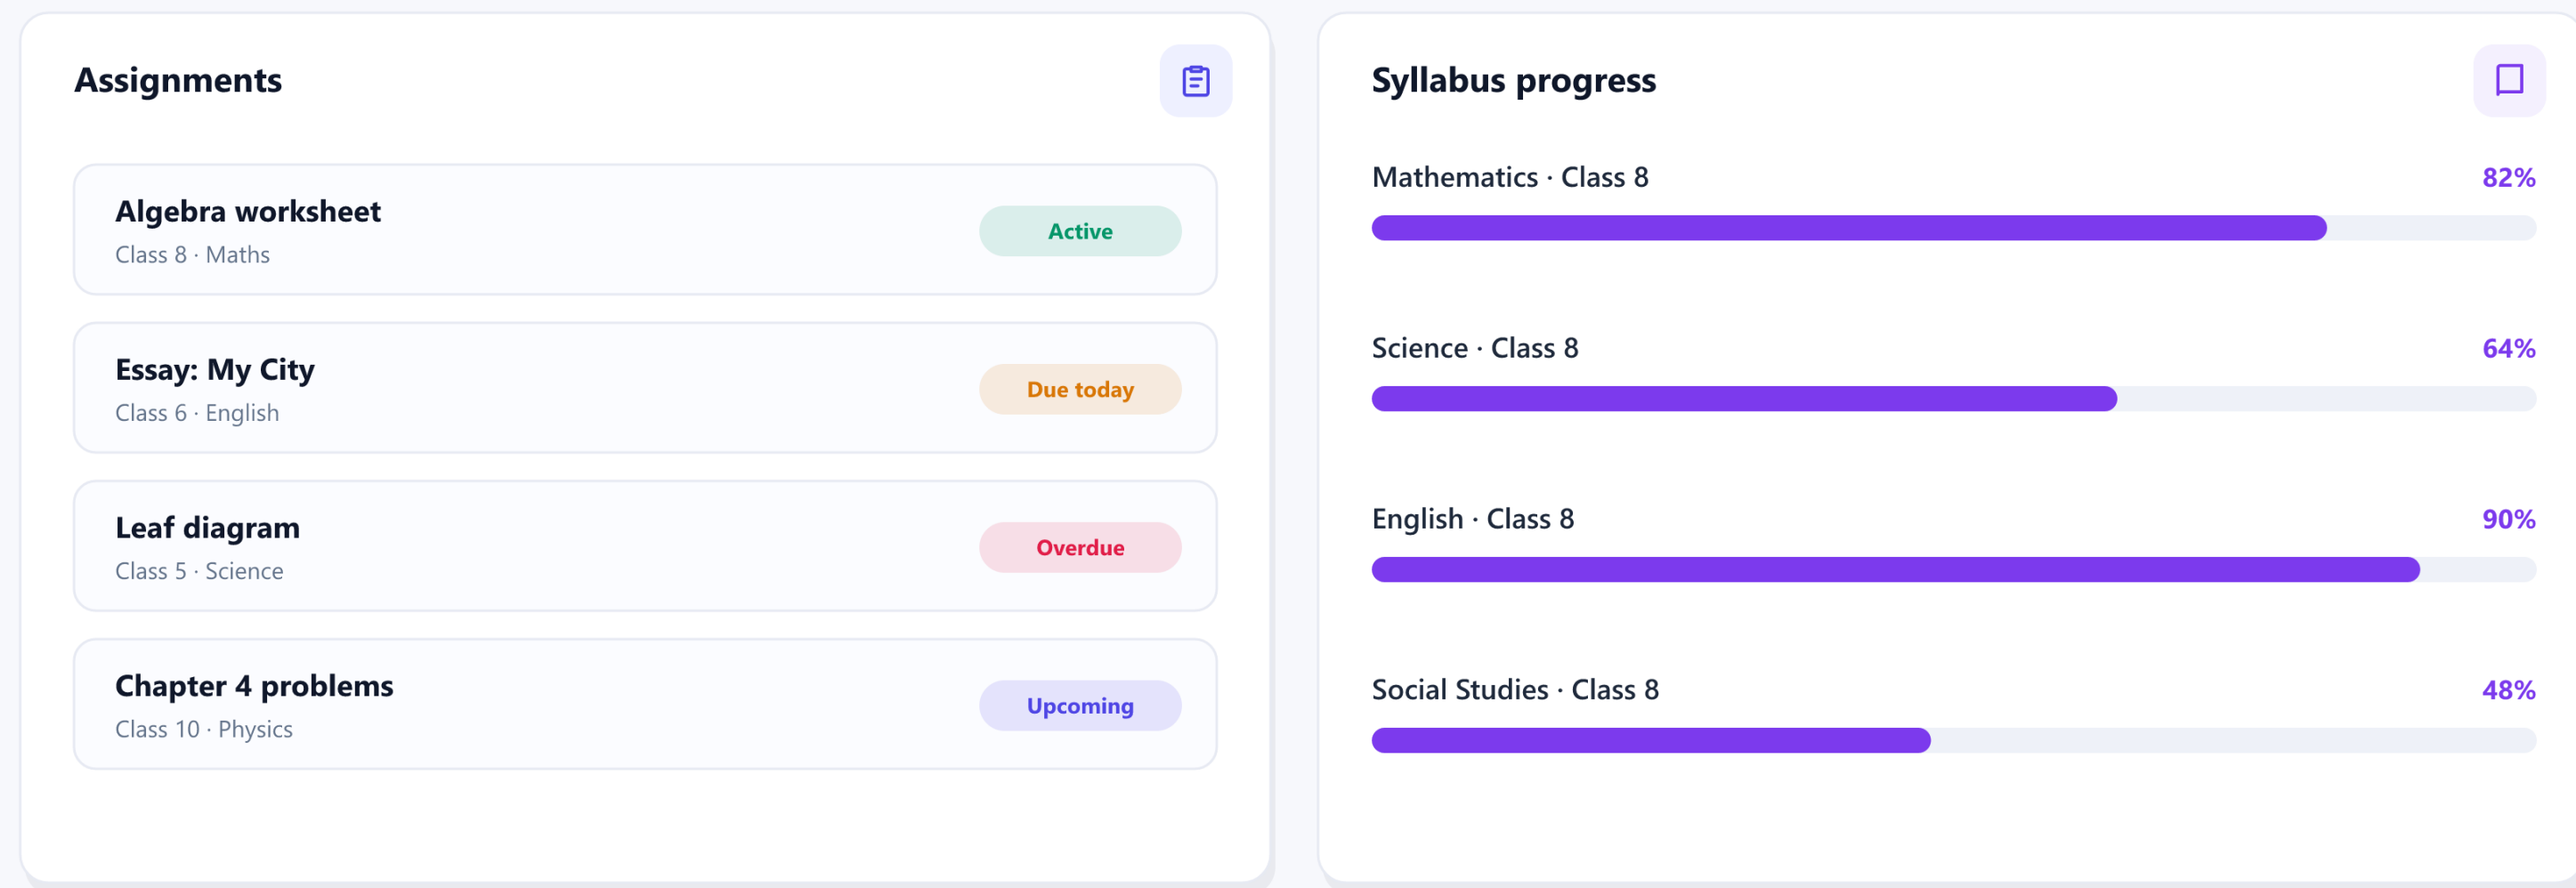

Report Card — Anaya Rao · Class 8

Mathematics		88%
Science		76%
English		64%
Social Studies		91%

Marks locked until exam day
Mark entry opens only after the scheduled exam date — enforced on the server, not just the screen.

Admit cards, ready to print
Generated for the selected class and exam — with student photo and details.

Keep classwork and curriculum on track.

Share learning material — your way.

Video

Upload a clip or paste a YouTube/Drive link. File size is captured automatically.

PDF

Attach a PDF or link to one. Type & size are validated on upload.

Notes

Upload notes or share an external URL — whichever is easier.

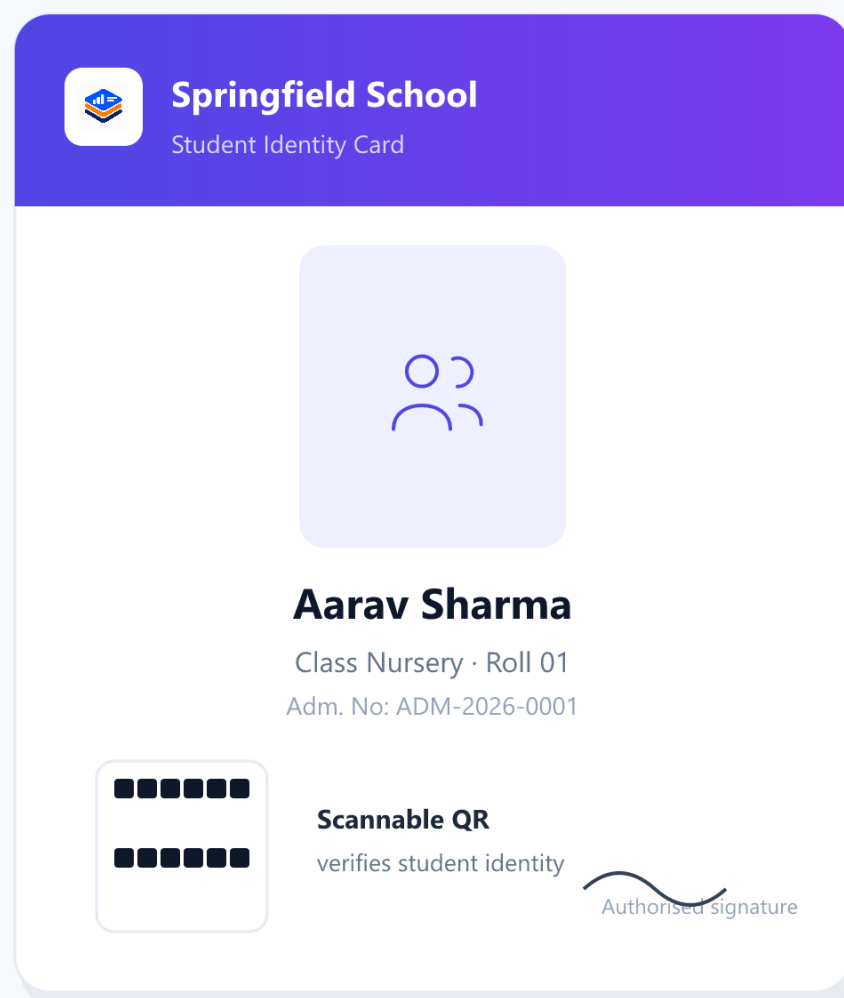

Online classes

Schedule live classes with class, subject and teacher mapping.

One rule everywhere: a file OR a link — never both required.

Every official document — generated from one record.

ID cards with real QR

Every card carries a scannable code, unique to the student.

Certificates

Bonafide, transfer, character & more — generate, preview, print.

Document vault

Aadhaar, birth certificate, TC and marksheets, per student.

School signature

Upload once in Settings — it appears on every card.

Run the fleet from stops to student allocation.

-  **Routes from stops**
Add pickup points; the route name builds from first → last.
-  **Bus management**
Track buses, drivers, capacity and timings.
-  **Student allocation**
Assign students to routes and see who rides which bus.
-  **Driver records**
Keep driver and vehicle details in one place.

The whole campus, not just the classroom.

Beyond academics — the day-to-day services a school runs on.

Hostel

Rooms & boarders

Library

Books & issue records

Inventory

Stock & supplies

Canteen

Menu & items

Health

Clinic & medicines

Labs

Labs & practicals

Keep the whole school in the loop.

Announcements

School-wide notices, instantly.

Messages

Direct messages between users.

Notice board

A shared board of circulars.

Events

Plan and publish school events.

Visitor management

Log and track campus visitors.

One school, one channel

Notices, events and messages live inside the same system as students and parents — no separate app to manage.

Spot problems early — help staff work faster.

A rule-based engine works out of the box; connect Gemini or OpenAI for smarter output.

STUDENT RISK DETECTION

AI SUITE

Accurate by design: shows a real number and reason — with or without an AI key connected.

AUTOMATION

Let routine follow-ups run themselves.

Built-in triggers watch your data and prompt the right action.

Low attendance

Fee overdue

Birthday today

Admission pending

Then SchoolDeck acts

- ✓ **Notify the right people**
Class teacher, accounts or admin — automatically.
- ✓ **Flag it on the dashboard**
The issue surfaces where it will be seen.
- ✓ **Keep a running record**
Every trigger and action is logged.

One platform, tailored to every role.

Each person signs in to exactly what they need — nothing more.

	Dashboard	Students	Academics	Fees	Communication	Settings
Admin / Principal	✓	✓	✓	✓	✓	✓
Teacher	✓	●	✓	—	✓	●
Accounts / Reception	✓	●	—	✓	✓	●
Parent	●	●	●	●	●	—
Staff	✓	—	—	—	✓	●

✓ Full access

● Limited / own scope

— No access

Parent sign-in portal — coming soon

— WHY IT'S DIFFERENT

Not another module list — one connected system.

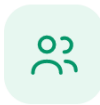

One source of truth

A student is entered once. Fees, attendance, marks and documents all link back to the same record.

Every department, one place

Academics, finance, transport, library, health and more — no separate apps to reconcile.

Built for real school roles

Admin, teacher, accounts and parent each get a tailored, access-controlled experience.

Less manual work

Auto IDs, auto-absent, receipts, report cards and reminders — the routine runs itself.

Run your entire school from one connected platform.
